

Intellifiber Networks Acceptable Use Policy

This Acceptable Use Policy specifies the actions prohibited by Intellifiber Networks LLC, to Intellifiber's Customer and other users of Intellifiber's Network. Intellifiber reserves the right to modify the Policy at any time, effective upon posting of the modified Policy on this page.

Intellifiber has the right, but not the obligation, to suspend or terminate any user's services or to remove from any user's account, any material in violation of any applicable law or regulation, in Intellifiber's sole discretion. Intellifiber shall not be liable to users for any damages or losses of any kind whatsoever, for such termination or removal of services or material, regardless of the accuracy or eventual outcome of any allegations of illegal use.

Illegal use

The Intellifiber Network may only be used for lawful purposes. Transmission, distribution or storage of any material in violation of any applicable law or regulation is strictly prohibited. This includes, without limitation, material protected by copyright, trademark, trade secret or other intellectual property right used without proper authorization, and material that is obscene, defamatory, constitutes an illegal threat, or violates any export control law.

System and network security

Violations of system or network security are prohibited, and may result in criminal and civil liability. Intellifiber Networks will investigate all allegations of such violations and may involve and will cooperate with law enforcement officials if a criminal violation is suspected. Examples of system or network security violations include, without limitation, the following:

- Unauthorized access to or use of data, systems or networks, including any attempt to probe, scan or test the vulnerability of a system or network or to breach security or authentication measures without express authorization of the owner of the system or network.
- Unauthorized monitoring of data or traffic on any network or system without express authorization of the owner of the system or network.
- Interference with service to any user, host or network including, without limitation, mailbombing, flooding, deliberate attempts to overload a system and broadcast attacks.

- Forging of any TCP-IP packet header or any part of the header information in an email or a newsgroup posting.

Email

Sending unsolicited mail messages, including, without limitation, commercial advertising and informational announcements, is explicitly prohibited. A user shall not use another site's mail server to relay mail without the express permission of the site.

Usenet

Posting the same or similar message to one or more newsgroups (excessive cross-posting or multiple-posting, also known as "SPAM") is explicitly prohibited.

PASSWORDS

Users are required to maintain all passwords as private and confidential information.
